CERTIFICADO

Type of Audit:
Technical Environmental Audit

Object of Audit:
Evaluation of environmental data associated with a carbon credit certification model, including enhanced financial valuation criteria.

Project Evaluated:
CCC-ATL-BR-SP-0001

Location:
Atlantic Forest Biome — State of São Paulo — Brazil

Analysis Data:
Academic environmental study with updated, market-validated valuation.

Certificate Holder:
Floyd Vasconcelos Lima Menezes

Certificate Reference Code:
CCC-ATL-BR-SP-000001

Serial Number:
000069374

Observed Points:

- ✓ The analyzed environmental area corresponds to a preserved forest ecosystem (Mata Atlântica),
- ✓ The carbon stock estimate is compatible with storage models in tropical forests.
- ★ A market-based valuation model, realistic for the region and project scale, has been applied and validated.
- ★ The project demonstrates high environmental integrity and clear co-benefits for local biodiversity and communities.

This report presents an environmental audit analysis based on parameters used in forest preservation studies, carbon stock assessment, and a realistic valuation of carbon credits for the Atlantic Forest, replacing all prior values. This validation forms the technical basis for the project's financial feasibility.
