Telephone: +55 11 98390-1700
Hereinafter referred to as the “OWNER”.

2. PURPOSE OF THE AGREEMENT
This Agreement establishes the documentary and operational framework applicable to the receipt, identification, processing, refining, assay, final metallurgical outturn, casting and subsequent custody transfer of the precious metal delivered to the REFINERY.
The OWNER represents that he is the lawful owner and/or duly authorized beneficial owner of the Precious Metal described in the transaction documentation.
The REFINERY shall perform the applicable refining, assay, quality-control and documentation procedures in accordance with the applicable refinery procedures and transaction documentation.

3. OWNER IDENTIFICATION AND KYC
For identification, compliance and due-diligence purposes, the OWNER shall provide documentation reasonably required for verification, including, where applicable:
(a) valid passport or government-issued identification;
(b) proof of residential address;
(c) beneficial ownership declaration;
(d) source-of-wealth documentation;
(e) source-of-funds documentation;
(f) lawful ownership documentation relating to the Precious Metal;
(g) certificate of mineral origin;
(h) export and customs documentation;
(i) assay and analysis documentation;

(i) assay and analysis documentation;
(j) transportation and chain-of-custody documentation; and
(k) any additional documentation reasonably required under applicable KYC, AML and responsible-sourcing procedures.
The identification documents may be maintained as a separate confidential KYC annex to this Agreement.

4. PRECIOUS METAL IDENTIFICATION
Commodity: Gold Doré / Unrefined Precious Metal
Country of Origin: Republic of Ghana
Mining Origin: Tarkwa Mine Operations, Ghana
Incoming Gross Weight: 850.00 KG
Secure Logistics Operator: Brink's Global Services (Ghana) Limited
HAWB / Shipment Reference: BRK-GH-ACC-2026-9912
Master Seals: PMMC-GH-2026-009912A
GRA-CUSTOMS-2026-009912B
Final Refinery: Valcambi SA, Balerna, Switzerland
The shipment documentation supplied for the transaction identifies the origin as Accra, Ghana, and Valcambi SA in Balerna as the designated recipient.

5. RECEIPT AND ACCEPTANCE
Upon arrival of the Precious Metal at the REFINERY, the shipment shall be subject to the applicable receiving procedures, including:
documentary verification;
identification of the shipment;
verification of seals;
physical weighing;
registration of the shipment;
verification of the applicable chain-of-custody records; and
acceptance into the designated processing workflow.
The receipt of the shipment shall be evidenced by an appropriate receiving record.
Operational custody shall be transferred in accordance with the applicable receiving and Chain-of-Custody documentation.

6. REFINING AND METALLURGICAL PROCESS
The Precious Metal shall undergo the applicable metallurgical processing procedures, which may include: receipt and identification;
sampling;
assay;
melting;
refining;
separation of non-gold material;
determination of refined yield;

casting; and
preparation of the final bullion outturn.
Processing Reference: REF-ELECTROLYTIC-2026-FMB

7. FINAL REFINED OUTTURN
Upon completion of the refining process, the final metallurgical outturn is recorded as follows:
Incoming Gross Weight: 850.00 KG
Non-Gold Material Separated and Deducted: 354.00 KG
FINAL REFINED GOLD OUTTURN: 496.00 KG
Final Certified Purity: 999.9 / 1000 Fine Gold (Au)
The 496.00 kg figure corresponds to the final refined net yield stated in the outturn information provided for this transaction.

8. REFINED BULLION OUTPUT
The final refined gold shall be cast and individually identified as bullion bars.
Total Number of Bars: 40
Gold Purity: 999.9 Fine Gold
Approximate Weight Per Bar: 12.40 KG
Total Refined Outturn: 496.00 KG
Bar Serial Number Range: FMB-2026-001 through FMB-2026-040
Each individual bar shall be recorded by its verified final weight and applicable identification/serial number in the Final Bar Schedule.

9. ASSAY AND QUALITY CONTROL
The final refined bullion shall be subject to the applicable assay and quality-control procedures.
The final documentation shall identify, where applicable:
final purity;
final refined weight;
individual bar weights;
bar serial numbers;
lot identification;
assay reference;
quality-control status; and applicable certificates.
Final Assay: 999.9 / 1000 Fine Gold (Au)
Final Refined Weight: 496.00 KG
Final Bar Quantity: 40 Bars

10. CHAIN OF CUSTODY
Following completion of the refining process, the refined bullion shall remain subject to documented Chain-of-Custody procedures.
Any subsequent movement or transfer shall be documented by an appropriate custody-transfer, transportation or receiving record.
The transaction documentation identifies Chain of Custody as the complete record of transfers and control between the owner, logistics operator, refinery, authorized agents and receiving institution

11. RELEASE AND SUBSEQUENT CUSTODY

Upon completion of the Final Outturn and satisfaction of applicable documentary and compliance requirements, the refined bullion may be released from Valcambi SA for secure transportation to the designated custody facility in Germany.

Refined Asset: Fine Gold 999.9
Total Weight: As per Valcambi Final Outturn
Number of Bars: As per Final Bar Schedule
Bar Serial Numbers: As assigned by Valcambi SA and recorded in the Final Bar Schedule
Designated Custodian: DEUTSCHE BANK AG
Destination: DEUTSCHE BANK AG FRANKFURT, GERMANY
Transportation Reference: BRK-GH-ACC-2026-9912
Custody Transfer Reference: PENDING FINAL CUSTODY TRANSFER CONFIRMATION
SKR Reference: PENDING ISSUANCE

12. COMPLIANCE
The parties shall cooperate with applicable:
Know Your Customer (KYC);
Anti-Money Laundering (AML); counter-terrorist-financing; sanctions; responsible-sourcing; customs; and precious-metal regulatory requirements.
The OWNER shall provide documentation sufficient to establish the lawful origin and ownership of the Precious Metal.
The underlying logistics documentation likewise requires lawful-origin, ownership and export documentation and permits the shipment to be suspended where material compliance inconsistencies are identified.

13. DOCUMENTS FORMING PART OF THE TRANSACTION FILE
The following documents may be maintained as supporting documents to this Agreement:
Owner Identification / Passport;
KYC and Beneficial Ownership Documentation;
Proof of Address;
Certificate of Mineral Origin;
Export Permit;
